DETAILED ACTION

1. The amendment filed 1/15/04 has been entered.
2. Applicants' arguments filed 1/15/04 have been considered but are not found persuasive.
3. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
4. Claims 12, 28, 29 & 42 stand objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
5. Claims 10, 13-14, 34-36, 41 and 43-45 stand rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1-9, 15 & 18-19 of U.S. Patent No. 6,403,335 B1, for the reasons made of record in Paper No: 29 (mailed 7/15/03).

Applicants argue on page 4 of the response that "the specification of the '335 patent teaches murine and rat persephin sequences", that "[t]he '335 specification does not disclose human persephin", and that "[t]he instant claims are directed to nucleotide sequences with at least 75% identity to human persephin". The Examiner agrees. However, the issue remains that the genus claimed in the instant claims encompasses the rat and murine sequences of '335, because these sequences encode proteins that are approximately 80% identical with SEQ ID

Art Unit: 1647

NOs: 223 or 221, and therefore, are "at least 75% identical to SEQ ID NOs: 223" / "223 or 217", as claimed in the instant application.

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
